INDUSTRIAL SAFETY

839212

Brain Beats Brawn (20) FS-SD - 35 mm

Methods of materials handling, lifting, etc., are demonstrated to show the "wrong way" and the "right way." The application of correct procedures in lifting and handling material without undue strain can prevent hernia and most of our common back injuries.

Recommended for use in safety orientation programs for new employees likely to be involved in lifting and material handling.

May be purchased from the National Safety Council. Purchase price is \$10.00.

Close Shaves (15) SD-M - 16 mm

Near accidents should be warning - both on and off the job.

May be loaned free of charge from the sponsor, The Zurich-American Insurance Company, 135 South LaSalle Street, Chicago 3, Illinois.

Decide To Be Safe (15) SD-M - 16 mm

Psychology, sound thinking and planning by each worker is a strong safety factor.

This film is one of a series of 5 entitled "The Personal Side of Safety." It may be rented from the sponsor, the National Safety Council, at \$5.00 per week. The purchase price of each film is \$40.00 or the price for the entire set is \$190.00.

Don't Drop Your Guard (10) SD-M-C - 16 mm

This picture shows the importance of the many safety devices in modern machine shops, armature rooms, etc.

May be obtained on free loan from the sponsor, Aetna Life Affiliated Companies, 151 Farmington Avenue, Hartford 15, Connecticut.

Easy Does It (15) SD-M - 16 mm

Shows how handling a variety of materials can be done in a safe manner.

May be obtained on free loan from the sponsor, The Zurich-American Insurance Company, 135 South La Salle Street, Chicago 3, Illinois.

Facts About Safe Floor Care (18) SD-M-C - 16 mm.

Shows dependence of safe floors upon care and maintenance.

The sponsor is S. S. Johnson and Son, Incorporated.

May be obtained on free loan from Frank Lewis Films, 1721 North Wells Street, Chicago 14, Illinois.

Get A Grip On Yourself (15) SD-M - 16 mm

Personal factors and emotions are basic considerations in controlling accidents.

One of a series of 5 films entitled "The Personal Side of Safety."

For source and price see "Decide To Be Safe."

Let Habit Help (15) SD-M - 16 mm

Shows the value of getting rid of bad working habits and developing safe ones.

One of a series of 5 films entitled "The Personal Side of Safety."

For source and price see "Decide To Be Safe."

Machines (10) SD-M - 16 mm

Shows why management should be made aware of hazards and the need for correction.

One of a series of 6 films entitled "Accidents Don't Happen."

May be rented from the International Film Bureau, Incorporated, 57 East Jackson Boulevard, Chicago 2, Illinois at \$1.50 per day.

No Laughing Matter (15) FS-SD - 35 mm

Shows how falls, which cause a big share of accidental deaths and many serious injuries, can be prevented. Covers falls from ladders, scaffolds, trucks and trailers; falls resulting from slipping, tripping, running, climbing on stock piles, and many others.

Applicable to workers in factories, warehouses, mills, on railroads, construction projects, etc.

May be rented from the National Safety Council (members only) at \$5.00 per week. Purchase price is \$15.00 to National Safety Council members and \$22.50 to others.

Pass The Word Around (14) SD-M - 16 mm

Safe attitudes can be instilled through proper training.

May be obtained on free loan from Spinn and Associates, Incorporated,
623 South Wabash Avenue, Chicago 5, Illinois.

Rules For Tools (20) FS-SD - 35 mm

An interesting story of the safe use of small hand tools, built around the four rules: select the right tool, be sure it's in good condition, use it properly, put it away safely. The tools themselves play the leading roles and carry on a conversation with "Ol' Man Accident." Each tool explains how the safety rules should be applied to him.

Recommended for use in safety orientation programs for employees who handle tools.

May be rented from the National Safety Council (members only) at \$5.00 per week. Purchase price is \$15.00 to National Safety Council members and \$22.50 to others.

Safe As You Think (28) SD-M - 16 mm

An ideal film for any group of workers. It is in good story form and is thought provoking.

May be obtained on free loan from General Motors Corporation.

Requests from Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, Wyoming, should be sent to General Motors Corporation, 508 San Francisco Bank Building, 405 Montgomery St., San Francisco 4, California.

Exhibitors in Greater New York City and on Long Island should write General Motors Corporation, Department of Public Relations, Film Section, 1775 Broadway, New York 19, N. Y.

All other states including that part of New York state not mentioned above write General Motors Corporation, Department of Public Relations, Film Section, General Motors Building, Detroit 2, Michigan.

Safe Handling of Oxygen and Acetylene
Cylinders and Apparatus - S-3 - FS-S - 35 mm

Shows approved safe practices for handling oxy-acetylene equipment. Student lesson books included describe the step-by-step procedures as shown in the film. An instructor's book also included contains many helpful suggestions.

Recommended for training programs in oxy-acetylene welding.

May be purchased from the Linde Air Products Company, 30 East 42nd Street, New York 17, New York. Purchase price is \$3.00.

Safety Record (15) SD-M - 16 mm

Cooperation of management and workers makes possible a good no-accident record.

One of a series of 5 films entitled "The Personal Side of Safety."

For source and price see "Decide To Be Safe."

The Eyes Have It (20) FS-SD - 35 mm

A dramatic appeal for the use of goggles in industry. Their value and importance is demonstrated in case histories of eye accidents, and how they could have been prevented. Recommended for safety orientation programs for employees involved in work wherein they are exposed to potential eye injuries. May be purchased from the National Society for the Prevention of Blindness, 1790 Broadway, New York 19, New York. The purchase price is \$7.50.

Two Steps To Safety (12) SD-M - 16 mm

Workers learn safe ways to do jobs by attention, observation and practice.

One of a series of 4 films entitled "The Personal Side of Safety."

For source and price see "Decide To Be Safe."

You're Driving Ninety Horses (25) SD-MC - 16 mm

A very good film for fleet operators, particularly where the public is involved such as electric and other utilities.

May be obtained on free loan from the American Telephone and Telegraph Company, Information Department, Film and Display Div., 195 Broadway, New York 7, New York, or requests may be made at local Bell System Telephone Offices.

OFF THE JOB SAFETY

Safe All Around (20) FS-SD - 35 mm

A story of off the job safety dealing with hazards in and around the home. The hazards are analyzed and methods for their elimination suggested. Typical accidents occurring in the yard, the garage, the basement, the bedroom, the bathroom, and the kitchen are shown and an appeal is made to workmen to walk and drive safely.

Recommended for new employee safety orientation programs or for general safety meetings.

May be rented from the National Safety Council (members only) at \$5.00 per week. Purchase price is \$15.00 to National Safety Council members and \$22.50 to others.

PUBLIC SAFETY

And Then There Were Four (25) SD-M - 16 mm

A very good film on traffic safety narrated by James Stewart.

May be obtained on free loan from American Automobile Association, Traffic Engineering and Safety Department, Pennsylvania Avenue at 17th Street, Washington 6, D. C., Modern Talking Pictures, Hq. - 9 Rockefeller Plaza, New York 20, New York, and branch offices in major cities.

Case of Tommy Tucker (18) SD-M - 16 mm

A very good general traffic safety film.

May be obtained on free loan from Modern Talking Pictures, Hq. - 9 Rockefeller Plaza, New York 20, New York, and branch offices in major cities.

Day In Court (29) SD-M-C - 16 mm

A day's calendar in Traffic Court - how justice can effectively be dealt.

This is an excellent traffic film that should be a must with every utility.

May be obtained on free loan from the sponsor, International Harvester Company, 180 North Michigan Avenue, Chicago 1, Illinois.

Defensive Driving (20) FS-SD - 35 mm

An entertaining and instructional film for both pleasure car and truck drivers. Two newspaper reporters are given the assignment of finding out why truck drivers are able to drive such big, clumsy vehicles with so few mishaps. Interviews with drivers of various types of trucks and demonstrations of "defensive driving" tactics.

This film can be used to advantage in vehicle driver training classes.

May be rented from the National Safety Council (members only) at \$5.00 per week. Purchase price is \$15.00 to National Safety Council members and \$22.50 to others.

Safety Patrol (10) SD-M - 16 mm

Dealing mostly with pedestrians with emphasis on school children, but has some application for utilities.

May be obtained on free loan from General Motors Corporation.

See "Safe As You Think" - Industrial Safety Section - for film sources.

We Drivers (13) SD-M - 16 mm

A good film showing thinking processes of various types of drivers.

May be obtained on free loan from General Motors Corporation.

See "Safe As You Think" - Industrial Safety Section - for film sources.

FIRST AID

Artificial Respiration (6) SD-M - 16 mm

The new back pressure-arm lift method of respiration.

May be obtained on free loan from the Civil Aeronautics Administration Audio-Visual Aids, Washington 25, D. C.

Essentials of First Aid (45) SD-M - 16 mm

A very good film on general first aid by the U. S. Navy.

May be obtained on free loan from the Civil Aeronautics Administration, Audio-Visual Aids, Washington 25, D. C.

Open For Infection (20) FS-SD - 35 mm

Story features workman who cuts finger, then scoffs at first aid and is ordered to first aid room by foreman. While having finger treated, he learns from the doctor great dangers in neglecting even the smallest cuts or injuries. Film shows the important reasons for prompt first aid and examples of neglected first aid.

Suggested for use in new employee orientation programs besides first aid meetings.

May be rented from the National Safety Council (members only) at \$5.00 per week. Purchase price is \$15.00 to National Safety Council members and \$22.50 to others.

SUPERVISORY TRAINING

A New Supervisor Takes A Look At His Job (13) SD-M - 16 mm

A young workman has just been made a supervisor. In an interview with the superintendent he is shown that in his new job he must learn to get results by working with people instead of machines. The importance of the human element in supervision is emphasized.

Though this film deals with the problems of supervision in a machine shop, the supervisory principles which arise with regard to the human element, are applicable in any industry.

Recommended for use in training programs for new foremen and supervisors.

Film is produced by the U. S. Office of Education and is distributed by Castle Films, Division of United World Films, 1445 Park Avenue, New York 20, New York. Purchase price is \$23.60.

Supervising Workers On The Job (10) SD-M -16 mm

Various kinds of poor supervisory practices are shown, among them nagging, snooping, etc. By dramatized incidents, the poor results of these methods are made apparent and the better ways indicated.

Recommended for use in training programs for new foremen and supervisors.

For source and price - see "A New Supervisor Takes A Look At His Job."

The Supervisor As A Leader - Parts I and II (13 each) SD.- M 16 mm

Four supervisors discuss the qualities of leadership. Dramatized incidents make clear what they mean. One man lets his job go to his head. Another goes to pieces under pressure, he can't control himself.

In other incidents, it is pointed out that the good supervisor is not afraid to praise his men for work well done and that he is loyal to them.

Recommended for use in training programs for new foremen and supervisors.

For source and price - see "A New Supervisor Takes A Look At His Job."

Introducing The New Worker To His Job (16) SD-M - 16 mm

The new worker is being started on his job. First, the induction is done very poorly. This becomes apparent as the new worker shows considerable dissatisfaction with his treatment.

Then the same job is done over again, but this time it is done correctly.

Recommended for use in training programs for new foremen and supervisors.

For Source and price - see "A New Supervisor Takes A Look at His Job."

Instructing The Worker On The Job (14) SD-M - 16 mm

A new girl worker is inadequately instructed to do a job on a drill press. She fails to master the job and, in distress, she leaves the machine.

The supervisor then does a careful job of instructing the next girl who becomes a competent operator. Thus the difference between telling, showing, and instructing is made clear.

The principles of J. I. T. are effectively demonstrated in this film. Therefore, it is recommended for use in training programs for new foremen and supervisors.

For source and price - see "A New Supervisor Takes A Look At His Job."

Experiment (13) SD-M - 16 mm

Deals with foremen and personnel relations. Worth showing to everyone.

May be obtained on free loan from General Motors Corporation.

See "Safe As You Think" - Industrial Safety Section - for film sources.

EMPLOYEE TRAINING

ABC's of Hand Tools - 2 Parts (18 each) SD-M-C - 16 mm

Animated film produced by Walt Disney Studios.

Part 1 - Use and care of hammer, screwdriver, pliers, and wrench.

Part 2 - Shows proper use of file, saw, chisel, plane, and punch.

Recommended in training of employees involved in use of common hand tools.

May be loaned free of charge from General Motors Corporation, Department of Public Relations, Film Section, General Motors Building, Detroit 2, Michigan.

A Professional Portrait (23) SD-M - 16 mm

A good story on training of truck drivers, particularly applicable to line crews, etc.

May be obtained on free loan from General Motors Corporation.

See "Safe As You Think" - Industrial Safety Section - for film sources.

Summer Storm (16) SD-M - 16 mm

This is a very good picture, giving the hazards and principles of electrical power supply during summer storms, with consideration given to lightning hazards, etc.

May be obtained on free loan from Modern Talking Picture Service, Incorporated, 339 Boulevard of the Allies, Pittsburgh 22, Pa.

The Art of Climbing (22) SD-M-C - 16 mm

Shows a telephone workman being taught the safe way to climb and work on poles while wearing lineman's climbers. Emphasis on the development of the climbing technique, each detail being carefully explained and illustrated. Proper maintenance of the climbers and the use and care of the body belt and safety strap are also covered.

Recommended for use in linemen's training programs.

May be loaned from Bell Telephone Company, Information Department of the Company serving territory in which borrower is located.

What Is Electricity? (20) SD-M - 16 mm

This picture gives the basic principles of electricity in a very interesting manner, and it can be used for introduction of electrical principles to new workers, or it can be used as a public relations film for civic organizations.

May be obtained on free loan from Modern Talking Picture Service, Incorporated, 339 Boulevard of the Allies, Pittsburgh 22, Pa.

The Inside of Arc Welding - 6 Parts (10 each) SD-M-C - 16 mm

The four principle factors of good arc welding - (1) current setting, (2) angle of electrode, (3) arc length, (4) speed of travel, with their effect on control of the molten pool, are clearly shown and explained. Using charts, animation, close-ups of the arc in action, as well as cross sections of good and bad welds, this film shows how good welds are made and what happens when the four factors are correctly and incorrectly controlled. The other films in this series are:

Film No. 2 - Flat Position.

Film No. 3 - Horizontal Position.

Film No. 4 - Alternating Current - Flat and Horizontal Positions.

Film No. 5 - Vertical Position.

Film No. 6 - Overhead Position.

Recommended as an excellent training aid for an arc welding course.

May be borrowed for single showings from the General Electric Company, Schenectady, New York.

Purchase price is \$52.00 per film, \$312.00 for the set of six.

FIRE

(40) SD-M-C 16 mm

"Know Your Fire Extinguishers." This is available through Boston Manufacturers Mutual Fire Insurance Co., 60 Batterymarch St., Boston, Mass. or through your nearest Factory Mutual Insurance representative.
